ABOUT US

Since 1934 Safety Center has been advancing its mission of reducing injuries and saving lives by providing high quality workplace safety and health educational experiences and products. We continually strive to be on the cutting edge of safety training. The first meeting of the Sacramento Regional Safety Forum was in February of 2010.

This monthly morning meeting for safety professionals is designed to assist those who have responsibility for the health, safety and the well-being of their workplace and workforce by providing them with relevant safety topics, support on regulatory compliance issues, information on safety products, networking and much more.
