

# 2026 Workplace Safety Symposium: Advancing Worker Protection

[CLICK HERE  
TO REGISTER](#)

Safety is changing. Organizations are shifting from reacting to incidents to building systems that protect people everyday and for the long term. Join Safety Center, Cal/OSHA's Standards Board, and safety leaders for a refreshingly productive day on what's working now, what's next, and the real drivers of safe work: conditions, culture, and forward-thinking decisions that shape behavior so we can strengthen protection and lasting well-being.
